FIG. 17

FIG. 17 is a perspective view of the device 10 in a retracted state. The device 10 is shown with its handle 200 and trigger 202. The cable 1 is shown in a retracted position, with its distal end 132(a) and 132(b) visible. The cable 1 is shown with a dashed line indicating its retracted position. The device 10 is shown with a dashed line indicating its retracted position.

FIG. 18

FIG. 18 is a perspective view of a catheter assembly 10. The assembly includes a handle 3 with a grip 132(a) and a trigger 132(b). A catheter 1 is connected to the handle, and a distal tip 80(a) is shown. A dashed line 80(b) indicates the position of the distal tip when the trigger is depressed.
